Dear Cody Brady

Appin Colliery Area 7 Subsidence Management Plan - Withdrawal of Approval Request

I refer to your letter dated 20 September 2022 (Our ref: RR22/118085) requesting the formal withdrawal of the Appin Colliery Area 7 Subsidence Management Plan Approval (Approval letter dated 17 April 2020, Our ref: LETT0004229).

In considering my response, I note that in accordance with the Bulli Seam Operations (BSO) Project Approval Condition 5, Schedule 3, an Extraction Plan for Longwalls 709 to 711 and 905 was approved by the Director Resource Assessments - NSW Planning and Environment on 29 July 2022. The Resources Regulator has also considered your supplementary information submitted on 9 March 2023 (Our ref: RR23/30074) which compares the existing SMP requirements and conditions with the Bulli Seam Operations Development Approval and the approved Extraction Plan and its associated conditions.

I consider that the requirements of the Appin Colliery Area 7 Subsidence Management Plan Approval have effectively been duplicated by the approved Extraction Plan.

The formal withdrawal/cancellation of the Appin Colliery Area 7 Subsidence Management Plan Approval is therefore approved effective as of the date of this letter.

If you require additional information, please contact the Resources Regulator on 1300 814 609 or via email at nswresourcesregulator@service-now.com.

Yours sincerely,

David Muxlow
Acting Director Compliance
Resources Regulator
